We would like to convey our satisfaction with KWC, Inc. They have proved themselves to be well qualified. KWC, Inc. begins construction when they say they will, builds the project for the amount of the contract and completes the work in the time frame they give with their bid. KWC, Inc. has given us the quality we expect. We intend to use KWC, Inc. on all our projects as they have proved that they are (in no particular order) honest, hardworking, safe, knowledgeable and responsible.
